PROFILE

Results-driven Software Engineer specializing in backend architecture (Node.js, Express) and Agentic AI systems (CrewAI, LangGraph). Proven track record of architecting scalable web applications, leading technical teams, and deploying LLM-powered workflows. Passionate about leveraging robust data analytics and modern development stacks to deliver impactful, user-centric solutions.

WORK EXPERIENCE & LEADERSHIP

Backend Web Developer Intern | CODTECH IT SOLUTIONS Aug 2025 - Nov 2025
Engineered backend systems utilizing Node.js, Express, and RESTful APIs. Optimized database structures and executed queries, effectively improving overall application performance and data processing.

Technical Head | E-Cell, GCOEK May 2024 - Apr 2026
Collaborated on the development of student web portals. Worked alongside a technical team of 4 junior developers (selected from 200+ applicants), guiding them on the cell's operations and fundamental web workflows.

Executive Board Member | CSESA Aug 2024 - Present
Assisted the Computer Science Engineering Students Association in organizing departmental workshops and collaborative technical events for the student community.

Executive Board Member | PDC, GCOEK Aug 2024 - Present
Planned and executed technical mock interviews and career readiness workshops for the Placement Development Club to improve student employability and industry awareness.

Google Student Ambassador | Google Gemini Apr 2026 - Present
Raised campus awareness of Google AI and Gemini technologies by marketing and delivering practical, hands-on demonstrations to student groups.

PROJECTS

BizHub: AI-Driven Gamified E-Learning Architecture [Live Demo](#)
Co-developed a comprehensive B2B2C e-learning platform featuring a 15-module entrepreneurship curriculum tailored for students aged 13-19. Engineered the technical architecture using a manual file-by-file HTML and CSS coding approach for complete structural control, and co-authored a research paper submitted to an IEEE conference.

Swachha Nagar Nigam Challenge (SNNC) [Live Demo](#)
Built a gamified, competitive web application designed to encourage civic responsibility and active citizen participation in local city cleaning initiatives.

Data Analytics & Visualization

Executed comprehensive data analysis projects leveraging advanced Excel functions and AI-driven Python scripts to process, visualize, and extract actionable insights from complex datasets.

Autonomous Agentic AI Systems

Engineered a multi-agent "Deep Research" system for autonomous topic research, and built a 4-agent software engineering workflow using CrewAI and Docker to automate coding and testing pipelines.

Modern Web Development (CineMood & Clones)

Portfolio Link

Designed and deployed fully responsive web applications including a personal portfolio, a sophisticated movie discovery platform (CineMood), and interactive replicas of Netflix and Nike focusing on clean UI/UX.

Visual Identity & Digital Branding

Created comprehensive visual assets including professional logos, event flyers, presentations, and high-quality video content using Figma and Canva for various digital platforms.

EDUCATION

2023 - Present	Bachelor of Technology (CSE) Government College of Engineering, Kolhapur	(CGPA: 7.21)
2020 - 2022	Higher Secondary Certificate (XII) Indira Gandhi Junior College, Dharangaon, Jalgaon	(84.17%)
2019 - 2020	Secondary School Certificate (X) P. R. High School, Dharangaon, Jalgaon	(93.00%)

TECHNICAL & SOFT SKILLS

Programming Languages:	Python, JavaScript, HTML, CSS
Backend & Databases:	Node.js, Express.js, MongoDB, PostgreSQL
AI Frameworks:	CrewAI, LangGraph, AutoGen, LLM Orchestration
Data & Design Tools:	Advanced Excel, Figma, Canva, PowerPoint
Soft Skills:	Problem Solving, Group Project Management, Team Leadership, Effective Communication
Spoken Languages:	English, Hindi, Marathi

ACHIEVEMENTS & CERTIFICATIONS

Technical Certifications: The Complete Agentic AI Engineering, Data Analytics, Full Stack Web Development, Python Bootcamp (Udemy), and Figma UI/UX Design.

Entrepreneurship Excellence: 3-time Winner in the Basic and Advanced Track at the National Entrepreneurship Challenge (NEC), IIT Bombay (2023 - 2025).

Publications: Co-authored and submitted a research paper on the BizHub AI-driven gamified architecture to an IEEE Conference.

Leadership & Representation: Selected as Google Student Ambassador (2026), Internshala Student Partner, and core board member (E-Cell, CSESA, PDC).

Sports & Extracurriculars: Championed school and college-level competitions in Cricket, Kabaddi, and Badminton.
